AMENDMENTS TO THE SOLICITATION

1. The Section L clause entitled "INSTRUCTIONS FOR THE PREPARATION OF TECHNICAL AND COST OR PRICING PROPOSALS" has been modified. Section C. Pricing Assumptions and Rationale has been revised. The text is as follows:

C. Pricing Assumptions and Rationale

The offeror shall submit any information, rationale, and assumptions necessary to determine the reasonableness of proposed fixed prices and fixed labor rates, including, the nature and amount of any contingencies included in the proposed price. As such, offerors shall, at a minimum, address the following areas:

*A. Fixed Rates for Phase-In, **Printing Analysis and Plan**, Standard Services, Premier Service, Personal Computer Back ups, and Phase Out CLINS* - The offerors are required to propose the quantities contained in Attachment 15, entitled, "Unit Quantities/Prices and Labor Hours/Rates."

B. Direct Labor Hours for Specialized Training, Disaster Recovery and Emergency Response, Emergency Operations Center (EOC) Activation Support, Continuing of Operations Plan (COOP Execution) and Specialized Projects CLINS.

The direct labor hours appearing in Attachment 15, entitled, "Unit Quantities/Prices and Labor Hours/Rates", are for professional labor only. These hours do not include management at a level higher than the program management or clerical support staff. If it is your normal practice to charge these types of personnel as a direct cost, your proposal must include them along with an estimate of the directly chargeable man-hours for these personnel. If this type of effort is normally included in your indirect cost allocations, no estimate is required. However, direct charging of indirect costs on any resulting contract will not be allowed.

For the purposes of evaluation, offerors are required to propose the hours listed in. These labor mix percentages represent the Government's estimate and do not guarantee the actual mix of labor that will be experienced during contract performance. The labor categories used in the labor mix estimate are provided as a frame of reference only. As such, offerors are encouraged to submit their own labor categories and descriptions in order to allow innovative approaches to the Statement of Work and to more closely reflect the offeror's fully burdened fixed rate structure.

For pricing and evaluation purposes, offerors should assume a contract award date of October 1, 2007.
